

ERP and Accounting System Integration Platform

Powered by eBridge Connections

If you need to set up automated data flow between CommerceHub and your accounting or ERP system, CommerceHub offers an integration to eBridge Connections.

eBridge Connections is a provider of cloud-based accounting integration-Platform-as-a-Service (iPaaS) for small to medium-sized businesses that supply to retail marketplaces and channels. Integrate with eBridge to automate dropship order exchange between CommerceHub and your accounting and ERP systems.

With automated workflows, you can save manual effort and streamline business processes to:

- Eliminate manual data entry
- Avoid costly errors, such as wrong quantity, address or price
- Reduce administrative costs, freeing up valuable resources
- Improve retailer and customer satisfaction by processing orders correctly and on time

The CommerceHub and eBridge Connection integration provides:

-  Bi-directional data pulls between channels, marketplaces and your accounting or ERP system
-  Customizable workflows tailored to your unique needs with translations and business rules
-  Order data and order changes automatically synced to your back-office system
-  Invoices, order acknowledgements and shipments sent to all channels

This integration gives you access to the eBridge Customer Portal (eiCloud), which offers:

- Visibility of all transactions moving between systems
- Error notifications via email and/or text to anyone on your team; no need to manually monitor integration
- 25 years of EDI integration experience

REQUEST A FREE CONSULTATION TODAY Contact CommerceHub at 518-810-0700, email us at hello@commercehub.com or visit www.commercehub.com/ebridge to get started! Together, we'll plan your data workflows, help you set up and test and provide follow-up support.

The eBridge Connections integration platform streamlines business processes by connecting ERPs such as NetSuite, Sage, Microsoft Dynamics, SAP, Epicor and more, to retailers, ecommerce platforms like Shopify, Magento and BigCommerce, ecommerce marketplaces such as Amazon and ebay, other apps like ShipStation, and the leading CRM applications. With over 25 years of experience, brands trust the team at eBridge Connections as their integration expert. Visit www.ebridgeconnections.com for more information.
